Subject index

Volume 52 (2004)

Acknowledging **52**, 169
Adherence **52**, 31
Adolescents **52**, 31
Advice-giving **52**, 159
Aftercare **52**, 243

Behavioral problems **52**, 61
Behaviour **52**, 271
Behavioural factors **52**, 237
Birth choice **52**, 307
Breast cancer patient **52**, 279
Brief interventions **52**, 107

Caesarean section **52**, 307
Cancer **52**, 131, 143, 333, 341
Cardiovascular risk **52**, 47
Chemotherapy-induced alopecia **52**, 333
Chronic illness experience **52**, 69
Chronic pain **52**, 297
Clinical trials **52**, 341
Cognitive functioning **52**, 237
Communication **52**, 61
Community networks **52**, 113
Concept mapping **52**, 183
Consultation improvement **52**, 201
COPD **52**, 221, 225, 231, 243, 249, 259, 271
COPD-patient education **52**, 267
Coping **52**, 201, 237
Coronary artery disease **52**, 79
Cost analysis **52**, 259
Cotinine **52**, 231
Cross-cultural comparison **52**, 113
Cystic fibrosis **52**, 69

Decision aids **52**, 209
Decision analysis **52**, 209
Decision making **52**, 89
Decision support **52**, 307
Decision-aid **52**, 307
Decision-making **52**, 341
Determinants **52**, 249
Diabetes education **52**, 151
Diabetes mellitus **52**, 97, 151, 193, 315
Diabetes **52**, 47
Dietary supplements **52**, 291
Doctor–patient communication **52**7, 7, 107, 297
Doctor–patient relationship **52**, 169

Economics **52**, 259
Education **52**, 97
Empowerment approach **52**, 193
Empowerment by education **52**, 175
Endoscopy **52**, 23
Exacerbations **52**, 225
Exercise training **52**, 221, 243

France **52**, 79
Functional exercise capacity **52**, 243
Functional health literacy **52**, 315

General practice **52**, 47, 159

Health counselling **52**, 249
Health promotion **52**, 291
Health-related quality of life **52**, 151, 225, 243
Hormone replacement therapy **52**, 89
Hypertension **52**, 47

Iatrogenesis **52**, 297
Illness experience **52**, 333
Individual differences **52**, 193
Information provision **52**, 23
Information **52**, 143
Informed choice **52**, 55
Informed consent **52**, 165, 341
INH **52**, 31
Intervention studies **52**, 7

Knowledge **52**, 55, 291

Labeling **52**, 291
Late diagnosis **52**, 69
Legislation **52**, 165
Life satisfaction **52**, 17
Life-style **52**, 17

Male sexuality **52**, 143
Malignant lymphoma **52**, 143
Medical factors **52**, 131
Medical message **52**, 79
Medical situation **52**, 23
Menopause **52**, 89
Monitoring **52**, 23
Mood **52**, 237
Mutual participation **52**, 279

Nutrition **52**, 221, 249
Nutritional education **52**, 183
Nutritional evaluation **52**, 183

Oncology consultations **52**, 279
Optimisation of lung function **52**, 225
Orthopedic nursing **52**, 175
Orthopedic patient education **52**, 175
